Statement.

Received from C. E. Buzzell case,	\$3,098 31
Total paid out,	2,595 18

NOTE: Of the above amount paid out we were forced by the persistent wilfulness of C. E. Buzzell and his constituents, after we had shown that he was a defaulter, to hire an expert accountant and continue the case, which meant counsel fees and accountants' bills, which covers the greater part of the expenses. And in our belief, if we had the old treasurer's book, so called, which contained the first year's account of C. E. Buzzell, it would be worth thousands of dollars to the town.

WALTER H. SMITH,
GEO. S. HAM,
EZRA B. BROWN.

Selectmen of Barrington.

Selectmen's Account.

BARRINGTON, N. H., Feb. 22, 1904.

We hereby certify we have examined the foregoing accounts and find them properly vouched and correctly cast.

FRANK I. DECATUR,
CHAS. A. TIBBETTS,

Auditors of Barrington.

AUSTIN L. CALEF,

Treasurer.

BARRINGTON, N. H., 1904.

We hereby certify that we have examined the foregoing accounts and find them properly vouched and correctly cast.

FRANK I. DECATUR,
CHAS. A. TIBBETTS,

Auditors of the Town of Barrington.

REPORT OF SCHOOL BOARD.

In submitting this annual report to the citizens of the town, the school board wishes to call attention to the present condition and apparent needs of the schools. While the past year has been marked by progress, we believe, and some improvements planned at the beginning of the year, have been made, yet there are other matters which need to be taken up in order to place our public schools in the line of modern advancement.

The board has been almost entirely agreed on all questions that have arisen. Dr. R. J. Ward presented his resignation late in the year, which was of necessity accepted, as he was about to leave town. In his removal, we believe the schools lost one of their staunchest friends. Dr. Ward was eminently conscientious in his work for the educational interests of the town, and we yet hope to see carried out some of the improvements which he suggested. As the important work of the year was already done, it was decided not to appoint a member to fill the vacancy and the two remaining members have completed the business of the year entirely in harmony.

With the money brought over from last year and the generous appropriation voted last spring, it was possible to keep thirty weeks in twelve schools, and still leave a small sum in the treasury. It seemed to be in the line of economy, because of an increased number of pupils, to keep a school in the old Town Farm district and accordingly this was done.

The attendance during the year was quite regular until the closing weeks of the winter term, when, owing to the incessant storms and cold weather, it was almost impossible for the smaller children to get to the school houses. The winter term

of the France school was closed at the end of six weeks, and that in the Evans at the end of nine. In these schools the pupils are small, and it seems best to have the term begin earlier in the spring. For this reason we recommend that the spring term be not less than twelve weeks, while the two named above will have to be longer to make up for the winter's loss. Enough money remains in the treasury to have completed ten weeks in all schools.

Through some misunderstanding with the Superintendent of Public Instruction, the usual proportion of the State Literary Fund was not received. We expect that this difficulty will be obviated next year, and that our schools will not again be deprived of this aid.

In the line of repairs, considerable work has been done. Thus the Oak Hill, Green Hill, Canaan and France school houses have been shingled, the Canaan and Evans buildings painted on the outside, and new desks placed in the Winkley school room. In addition to these, minor repairs have been made in other places. The appropriation for repairs was slightly exceeded but the law allows the use of five per cent of the regular funds if necessary.

We would call your attention to the fact that two or three new stoves are needed, also some repairs on the Caldwell and considerable on the interior of the Green Hill building. An appropriation of \$200 00 is needed for this purpose.

The matter of transportation seems to be a perennial source of discussion, and it was given careful attention the first of the year, with the result that the board decided not to pay any bills for conveyance. This has been strictly adhered to during the year.

The subject of text books is one that will demand the immediate attention of the new board. Some of the books in use at the present time, notably the geographies, are well worn and out of date. A new supply of the present kind or an entire change is absolutely necessary. We recommend that the new board give the subject their immediate attention, and, we would

add, that to us it seems to be in the line of economy and progress to adopt a new book which is thoroughly up to date. The United States history, which has been in use for many years, has been discarded and the new and up to date Channing history adopted in its place.

Three sets of the Globe series of maps, published by the Rand, McNally Co., were purchased and placed in the Swain, Oak Hill and Pond Hill schools. Our school rooms are notably deficient in maps and globes, which play an important part in modern methods of teaching, and we hope that the board next year will purchase more apparatus of this kind. The maps above mentioned are the best we have yet seen, and we recommend, as the finances of the town permit, that every school be supplied with a set.

In order to continue the work begun and keep from twenty-eight to thirty weeks of school it will be necessary to vote at least five hundred dollars additional school money. We earnestly hope that all may see this matter in its true significance, and, laying aside all political differences, strive together for better schools, which mean better manhood, noble womanhood and more material prosperity.

**Receipts and Expenditures of the School
Board from Feb. 15, 1903 to
